

Thousands Have Kidney Trouble and Don't Know It.

How To Find Out.
Fill a bottle or container glass with your urine and let it stand twenty-four hours: a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.
There is comfort in the knowledge so often expressed, that Dr. Kilmor's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes the constant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes. You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmor & Co., Birmingham, N. Y. When writing mention reading this generous offer in this paper.

Only One Convict.

The original penitentiary at Frankfort was built about 100 years ago, and it is a fact that for the first year after it was completed there was only one prisoner confined within its walls, and he was a horse thief. Since then it has several times been enlarged, and is now crowded beyond the rules of good health or the original ideas of the builders. At present there are about 1,300 convicts on the roll, and the number is increasing slowly but surely. What a change from the days when the lone horse thief was monarch of all he surveyed inside the prison walls.—Winchester Democrat.

GERMAN SYRUP.

We want to impress on our readers that Beebe's German Syrup is positively the only preparation on the market today that does relieve and cure consumption. It contains the specific, such as pure tar, extracts of ginseng, etc., which have been so highly endorsed for the cure of coughs, colds and consumption by the great medical congresses. The consumptive, whether his disease be in the throat or lungs, must have rest at night, and be free from the spasms of dry and hacking cough in the morning. The diseased parts want rest, healing and soothing treatment, and the patient needs fresh air, good food, and German Syrup will give free and easy expectation in the morning with speedy and permanent relief. Small bottles 25 cents; regular size, containing nearly four times as much, 75 cents. At all druggists.

Miss Frances Poffitt, of Galway, N. Y., got judgment at Albany for \$5,000 for the 1,236 kisses given her by the village blacksmith.

The many friends of G. H. Hansen, Engineer L. E. & W. R. R., at present living at Lima, O., will be pleased to know of his recovery from threatened kidney disease. He writes: "I was cured by using Foley's Kidney Cure, which I recommend to all, especially trainmen who are usually similarly afflicted. Sold by Louisa Drug Co."

Mrs. W. T. Richardson, a boarding house keeper in Detroit, was refused coal by the clerk in a coal office, and getting her change ready, and drawing a revolver, she held him up for a receipted bill for a ton of anthracite at \$7.50.

Proverbs

"When the butter won't come put a penny in the churn," is an old time dairy proverb. It often seems to work though no one has ever told why.

When mothers are worried because the children do not gain strength and flesh we say give them Scott's Emulsion.

It is like the penny in the milk because it works and because there is something astonishing about it.

Scott's Emulsion is simply a milk of pure cod liver oil with some hypophosphates especially prepared for delicate stomachs.

Children take to it naturally because they like the taste and the remedy takes just as naturally to the children because it is so perfectly adapted to their wants.

For all weak and pale and thin children Scott's Emulsion is the most satisfactory treatment.

We will send you the penny, i. e., a sample free.

Be sure that this picture in the wrapper of every bottle of Emulsion is the same.

SCOTT & BOWNE, Chemists, 409 Pearl St., N. Y. 50c. and \$1.00; all druggists. Ask your druggist for a free *Peruna Almanac* for 1904.

BLAINE.

I think A. M. A. is quite right in his position so far as the relation between the child of God and the kingdom of Christ is concerned, as paradoxical as it may seem, yet it is none the less true that God's children are in His Kingdom and His Kingdom is within them. If any one fails to see how this can be, then let him apply the colored preacher's illustration. The colored preacher was accused, by one of his brethren, of preaching an absurdity, when he declared with all the eloquence of his soul that we were "in the spirit and in the spirit in us." In defense of his statement and in order to make the matter clear to his distressed and much perplexed brother he said: "You stick de poker in de fire and heat in red hot, de fire is in de poker, and de poker is in de fire."

So it is with the followers of Christ and His Kingdom. They are in the kingdom so far as organization and institution are concerned, and the Kingdom is in them so far as principal and influence are concerned.

However, I don't know whether or not I grasp A. M. A.'s meaning, when he says that "too much prominence cannot be given to the power of the Holy Spirit." The fact that the Holy Spirit has a specific agency in turning men from darkness to light and from the power of Satan unto God is a fact not to be denied, but strongly emphasized by every one who in any way is familiar with the teaching of the New Testament. I suppose it is all right and commendable in response to this inquiring and speculative age, to even go further and ask how the Spirit operates on the minds and hearts of the people, provided we do not carry our speculations too far and endeavor to become "wise above what is written." Just here lies the danger. Some men, by their vain philosophies, have unwarrantably and presumptuously set undue limits to the power of the Holy Spirit, while others have gone to the opposite extreme, and ascribed to it an agency which absorbs and nullifies every thing else, ignores human agency and human responsibility and which, moreover, serves to cultivate as well as cherish a spirit of the most wild and extravagant fanaticism.

Extreme caution is therefore necessary just here, lest while we try to avoid the destruction of the former we fall into the vortex of the latter.

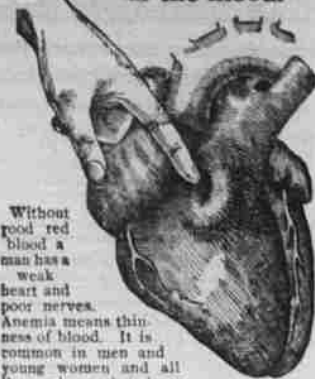

Again whether "popular or not" the Holy Spirit has an agency in comforting the hearts of God's adopted children. But how "one receives a measure of the Spirit at conversion and the remainder when sanctified." Is something, it seems to me, that is difficult to understand. But why wonder at its being so incomprehensible when it is so foreign to the plain obvious teaching of the Bible. For the vindication of this statement see Jno. 3:24, also, Acts 2:38. Why do we not hear the bold heroic yet inspired Peter say, when called upon to give an answer to a question of transcendent and paramount importance, "Repent and be baptized every one of you for the remission of your sins" and God will give you a "measure of the Spirit," then after some time perhaps days months or years you get the "second blessing" or get sanctification and God will give you the rest. Because God through the Holy Spirit never talked that way to him. The apostle, in consequence of his miraculous endowment, backed by the powers of Heaven and clothed with the authority of the newly Coronated Christ and King could and did, if they would only obey what was enjoined by that Spirit, give them the full assurance of sins forgiven and the comforting agency of the Spirit and a realizing sense of their acceptance with God. Does the East Point correspondent want more than this, which not only comprehends a man's conversion to Christ but also a scriptural sanctification? If so please tell me where in all the rich store house of God's eternal truth the directions for obtaining it may be found. Chapter and verse please.

Yours for the investigation of truth,
J. H. Stambaugh.

To Cure a Cold in One Day.
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box 25 cents.

A sad story of a young man told by one of our exchanges. A young man bought a shirt which was manufactured in the East. Rolled up inside it he found a note from the young lady who had sewed it, in which she said she would be pleased to correspond with the buyer, provided he be matrimonially inclined. The young man answered it on perforated paper and used his rosiest language, stating how glad he would be to marry. In a short time he received an answer saying in sharp language that the lady had been married three years and was a mother of two children. Of course he began investigating to find why he was too late. It was explained by the fact that his goods had lain on the shelf of the local dealer who did not advertise.

Courage is a Matter of the Blood.

Without good red blood a man has no courage. It is common in men and young women and all those who work indoors, who do not get enough outdoor air and good oxygen into their lungs. There are many there is often a peculiar sound in the heart, called a murmur. This heart murmur is caused by thinness of the blood passing through the heart. The murmur of anemia disappears when the blood regains its natural consistency and richness. It is not heart disease. Sometimes people suffer intense pain over the heart, which is not heart disease, but caused by the stomach. It is the occasion of much anxiety, alarm and suffering, for which its victim is dependent upon reflex disturbances from the stomach caused by indigestion. In the same way many troubles are dependent upon these reflex disturbances of what is called the pneumo-gastric nerve. To enrich the blood and increase the red blood corpuscles thereby feeding the nerves on rich red blood and doing away with nervous instability, take Dr. Pierce's Golden Medical Discovery, which promotes digestion and assimilation of food so that the blood gets its proper supply of nourishment from the stomach. Get as near to nature's way as you can. A medicine made of natural herbs, roots, fruits and which does not contain alcohol is the safest. Dr. Pierce's Golden Medical Discovery contains no alcohol or opium. Dr. Pierce's Pleasant Pellets are the best liver pills.

PLANS ARE MATURING.

Forestry Exhibit From Kentucky at Exposition Will Be Very Elaborate.

No more attractive exhibit at the World's Fair at St. Louis is to be made of Kentucky's products and resources than that in the Palace of Forestry, Fish and Game. In this building, as well as in all others on the exposition grounds where Kentucky is to have a part, the association has been looked upon with favor by the chief of the department. Kentucky's forestry space is on two of the main aisles of the building and almost in the center between the two chief entrances. Mr. A. N. Strunk, Louisville, chairman of the committee, and Mr. William Fox, the field representative thereof, have for counsel and assistance in their work the following well-known gentlemen: Clarence H. Menger, Grand Alexander Cecil Brester, Gen. John B. Cason, Louisville, and Mr. A. N. Strunk, Louisville. The forestry exhibit from Kentucky, representing seventy odd different varieties of commercial timbers, will be made as rustic in appearance as possible. A two-foot partition is to separate Kentucky from her neighbor, and on this partition will be displayed all the products of forestry with sixteen sections from Iowa. It was first suggested by Dr. Tarterton H. Bean, the Chief of the Department of Forestry for the Exposition, that the timber display be made in eight-foot sections, so cut as to show all the grains of the wood. To utilize space better, it has been determined to show only six-inch sections. In this way not only is it possible to give a good view of every variety of timber in the State, but the finished products from the same. Some kind friends of the association living in Eastern Kentucky have brought to the attention of the organization a number of massive trees in different counties which approach in size the monsters from California. Long sections of these trees will be shown in the outdoor forestry exhibit.

Dr. Bean, in a recent talk with an officer of the association, expressed anxious to have Kentucky to include in her space in his department the medicinal plants of the State and the seeds from the various trees. He also wants mounted specimens of fish and game shown and, in this connection, it may be mentioned that the association is endeavoring to get the Polytechnic Society of Louisville to let it have its wonderful collection of native Kentucky bird skins now in its possession. This collection was made by Mr. Charles W. Beckham, a relative of Governor J. C. W. Beckham, at the time he was connected with the Smithsonian Institute at Washington. There are three thousand specimens in the collection, showing the difference in plumage especially.

Kentuckians will be interested in knowing that Dr. Bean has assigned John J. Tully, of Louisville, a space twenty by twenty-two feet for a display of his hand-made fish nets, etc. Dr. Bean wants Mr. Tully to give all the life possible to this exhibit and has invited him to manufacture the fish nets in the space allotted to him.

Dragging Pains
2925 Keeley St., Chicago, Ill., Oct. 2, 1902.
I suffered with falling and congestion of the womb, with severe pains through the groin. I suffered terribly at the time of menstruation, had blinding headaches and rushing of blood to the brain. What to try I knew not, for it seemed that I had tried all and failed, but I had never tried Wine of Cardui, the blessed remedy for sick women. I found it pleasant to take and soon knew that I had the right medicine. New blood seemed to course through my veins and after using eleven bottles I was a well woman.

Mrs. Bush is now in perfect health because she took Wine of Cardui for menstrual disorders, bearing down pains and blinding headaches when all other remedies failed to bring her relief. Any sufferer may secure health by taking Wine of Cardui in her home. The first bottle convinces the patient she is on the road to health.

For advice in cases requiring special directions, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

In Bed four weeks with La Grippe.
We have received the following letter from Mr. Roy Kemp, of Angola, Ind. "I was in bed four weeks with la grippe and I tried many remedies and spent considerable for treatment with physicians, but I received no relief until I tried Foley's Honey and Tar. Two small bottles of this medicine cured me and now I use it exclusively in my family."

Take no substitutes. Sold by Louisa Drug Co.

OUR NEIGHBORS.

Attorney John Theobald and Miss Minnie Jones, two prominent young people of Grayson, were married at Catlettsburg.

Floyd S. Hinds and Miss Lucy Shannon, both residents of Catlettsburg, came to Ironton Wednesday, and were married by Squire W. D. Henry, at his office on Center street.—Ironton Irontonian.

Knott County Fugitives.
Stamper Sloan and Flen Mercer, fugitives from Kentucky justice, were arrested by our city officers a few days ago. On Tuesday Kentucky officers came and took the prisoners back to Knott county. One had committed murder and the other forgery. Our town officials received fifty dollars for their trouble.

Descendant of Daniel Boone.
Jason L. Webb, 81 years old, oldest member of the remarkable old Webb family, direct descendant of Daniel Boone, the famous Kentucky hunter, died in his quaint old home at Mayking, where he had lived for nearly sixty years. He has eighteen children and thousands of descendants in Eastern Kentucky and Southern West Virginia.

Congressman J. A. Hughes.
Some of the Republicans of this Congressional district are endeavoring to create sufficient feeling against Mr. Hughes to prevent his re-nomination in the next Republican convention, but it remains to be seen what it will amount to. Congressman Hughes has the reputation of being a hard worker, and has a large following who will rally to his standard and make it very warm for his opponents.—Williamson West Virginian.

Aged Pike County Woman.
On the morning of December 21, 1903, Mrs. Sally Taylor died at the home of her daughter, Mrs. K. F. Leslie, of Johns creek, Pike county, Ky. She was born in Pike county January 26, 1810, being at the time of her death nearly ninety-four years of age. She was widely known and greatly respected, a member of the Baptist Church for more than sixty years. The poor never went unrelieved from her door, and many a suffering brother has felt the gentle touch of her hand. After a long and well spent life she has gone beyond to join the husband and children who went before, and to watch for the remaining two, Mrs. Leslie and Mrs. Ben D. Williamson, of Catlettsburg, Ky.—Williamson West Virginian.

Oberlin Carter.
A lady who recently visited in Chicago, was entertained in the same home with Capt. Oberlin M. Carter. She says he is one of the most accomplished and brilliant men she ever met. He is living with his mother at the home of his brother, Dr. Stanton Carter. He is preparing his case for presentation to the civil courts, where his lawyers feel certain of his complete vindication.

As is well known, Capt. Carter was formerly a teacher in Lawrence county, and was appointed to West Point from here. He made a record for himself and was considered the most popular officer in the United States Army. His great popularity excited the envy of some of his associates, who conspired to bring about his downfall, so it is claimed by his friends. Captain Carter has had numerous flattering offers of important positions, but has declined them for the present, that he may give his attention to his coming litigation.—Ironton Register.

To Our Correspondents.
We have received several letters for publication recently that were not accompanied by the name of the writer. Most of them were newsy and we declined to omit them from our columns; but, as stated here, before a few hundred times, we cannot publish such letters. Unscrupulous persons often try to take advantage of us in this way, writing letters made up of false and hurtful statements. This is why we are compelled to have the author's name with each and every letter sent in. We do not publish the names, of course, but use fictitious signatures in the paper.

A Vest Pocket Doctor.
Never in the way, no trouble to carry, easy to take, pleasant and never failing in results are DeWitt's Little Early Risers. A few of these little pills in the vest-pocket is a certain guarantee against headache, biliousness, torpid liver and all of the ills resulting from constipation. They tone and strengthen the liver. Sold by all druggists.

Persons traveling in the value of horse meat for food gave a banquet in Berlin, at which 600 guests feasted.

"The nicest and pleasantest medicine I have used for indigestion and constipation is Chamberlain's Stomach and Liver Tablets," says Melard F. Craig, of Middletown, N. Y. "They work like a charm and do not gripe or have any unpleasant effect." For sale by A. M. Hughes.

Wonderful Nerve.

YATESVILLE.

In response to onion eater's call I will say that we are having one of the most severe as well as one of the most sudden cold snaps that we have had so far the present winter; as poor old Hoozen Chaffin used to jocularly express it "The wind has felt cold enough to make one think that zero was four miles below zero."

Christmas and New Year passed off quietly enough at this place but as usual some few boys may have to settle up some for their Christmas.

There is a great deal of sickness throughout this vicinity, almost the entire family of John Yates is down sick as is the wife of John D. Adkins.

Henry Vanhoush, of Paintsville, spent Christmas with his brother-in-law, Joe Fairchild, of this place.

Pearce Stanley, one of our neighbors, has taken the agency for a new history of the United States and has become quite a fluent talker.

Quite a number of transfers of real estate has taken place lately in this vicinity and several other trades are talked of.

Carter & Chaffin are using out the dry goods and groceries in good order. They had an immense trade the past fall and winter.

The whooping cough among the children has about abated, but all ages and sexes are scared half to death on account of snailpox. Say Mr. Editor we understand that two new cases have developed in Louisa. What about it?

Feed in this section for both man and beast is running somewhat slim considering the time of the winter. We look for old March to cause quite a hustle among stock feeders.

Carter & Chaffin have added a corn crusher to their mill machinery which is quite a convenience to our locality. The crusher is set up at a cost of about \$75.00 and crushes the cob of the corn as fine as chop.

The new Old Fellows Hall at Yatesville is second to none in the Blaine Valley, if not in the Big Sandy valley.

I am pleased to read onion eater's letters from Cadmus and in fact it seems to me that all the correspondents have started on the N-Y with new zeal and vigor the recent issues of the News having been quite interesting.

Croup.
The peculiar cough which indicates croup, is usually well known to the mothers of croupy children. No time should be lost in the treatment of it, and for this purpose no medicine has received more universal approval than Chamberlain's Cough Remedy. Do not waste valuable time in experimenting with untried remedies, no matter how highly they may be recommended, but give this medicine as directed and all symptoms of croup will quickly disappear. For sale by A. M. Hughes.

With a court judgment against her in the possession of \$10,000, Mrs. Nannie S. Bryan, of St. Louis, by putting the money under her clothing, held it against all comers.

For a bad taste in the mouth take a few doses of Chamberlain's Stomach and Liver Tablets. Price 25 cents. Warranted to cure. For sale by A. M. Hughes.

Stop it.
A neglected cough or cold may lead to serious bronchial or lung troubles. Don't take chances when Foley's Honey and Tar affords perfect security from serious effects of a cold.

Prof. G. Stanley Hall, of Clark University, Boston, not only proposed a tax upon bachelors, but declared that coeducation was a bar to matrimony.

Children Poisoned.
Many children are poisoned and made nervous and weak, if not killed outright, by mothers giving them cough syrups containing opiates. Foley's Honey and Tar is a safe and certain remedy for coughs, croup and lung trouble, and is the only prominent cough medicine that contains no opiates or other poisons. Sold by Louisa Drug Co.
